OVERVIEW

Property with huge renovation potential thanks to the large spaces, natural light and its location on a corner of the building on a street with some of the best city views in Valencia.

The current layout of this property to renovate offers a hall, 7 rooms, a kitchen and 2 bathrooms.

However, thanks to the geometric shape of the property, we can imagine creating a single spacious living area with abundant natural light thanks to the 4 doors leading out to a long balcony over the building's façade.

The sleeping area could be in the long wing of the property overlooking the interior patio.

We highlight the location, the brightness of the living area and the balcony from all the main rooms.
