OVERVIEW

House built with quality materials, with many spaces to enjoy with family both in winter and in summer, for sale a few minutes' walk from the centre.

This house has been built with reinforced concrete panels, so it has a solid structure that retains both the cool and the heat. It is very well located and has many storage spaces, so it provides comfortable day-to-day living.

The house has a built size of 362 m² and is on a plot of 562 m², 200 m² of which correspond to a large garden.

We enter the house on the ground floor through a beautiful porch that gives access to a summer lounge from which you can access the pool area, with beautiful views. In this room there is also a fireplace and an equipped kitchen which is very spacious so it is suitable for large family meals. This floor also has 1 parking space and a large closet, a bathroom, a machine area and a storage room.

The first floor offers 2 double bedrooms, 1 of which is the main one and has its own bathroom with a shower and hydromassage bath and access to the garden with its barbecue, fruit trees and orchard area. On this floor we also find a large kitchen with views and space for the whole family to eat, as well as a spacious and cozy living room with fireplace and access to one of the terraces with unobstructed views.

On the second floor there are 3 double bedrooms with a complete bathroom and 2 other terraces.

An ideal house as a first or second residence, also for investors because of its location and quality construction.
