OVERVIEW

House with 3 independent apartments in Miraflores del Palo. Very interesting investment opportunity.

Detached house on a plot of 980 m². The garages and the storage room are distributed over two floors plus a total of about 300 m² built, although the registry has 204 m² built and 157 m² useful.

We access the house from the street through a cemented lane that reaches the same facade. The house was completely renovated in 2008 and then it was divided into three apartments with independent entrances, although the facade was not finished and still needs the latest touch-ups.

Currently, on the ground floor we find two apartments. One has two bedrooms, a bathroom, a toilet and a living room with kitchenette. The other, two bedrooms, a bathroom and a living room with kitchenette. The third bedroom occupies the entire upper floor and offers three bedrooms, a large bathroom and a living room with kitchenette.

In addition, the house has three garages with independent entrances.

To use it as a single single-family home, it would be necessary to make some reforms to internally communicate the three apartments.
