185m² Built size

OVERVIEW

One of the most exclusive properties in the city. In a fantastic location with abundant light, 3 bedrooms and 2 bathrooms.

The property is located on the first level of one of the most emblematic and elegant residential buildings in the city, the work of the architect Carlos Carbonell Panella, who designed this gem in 1920 for the upper class of the era, within a framework of French-influenced eclecticism.

The layout of the property opens up to the exterior and is very bright, since it is in a corner building. Thanks to this configuration, there are day and night rooms overlooking the street, next to the elegant C / Jorge Juan. After walking through a beautiful, fresh lobby and climbing one of the most elegant staircases in the city, we reach the landing of this apartment, with elements that remind us of the building's façade.

From the beautiful interior hall you can see the colour and light available throughout the entire property. This entrance hall leads to the spacious living room, with 2 windows and balconies designed with great detail. This living room connects to a room on either side: the dining room and the master bedroom.

The dining room is characterized by its curved walls and glazing, overlooking the architectural jewel of the Mercado de Colón. The master bedroom, with architectural details is located in the most private area of the residence. With equal space and detail in flooring, ceilings and joinery, the property is completed by 2 bedrooms and 2 bathrooms.

The interior of the apartment stands out for the rich neo-baroque decorative elements, the use of ornaments, the patterns on the flooring, the mouldings and carpentry.
