OVERVIEW

Magnificent new build -build 4-bedroom apartment with indoor pool and gym for sale on the second line of the sea in the centre of Alicante

Lucas Fox presents this magnificent new build development , in a top-quality building with a pool overlooking the sea, in the new area of Benalua Sur, in the centre of Alicante. Benalua Sur is one of the most modern neighborhoods in Alicante, a three-minute walk from the centre and 15 minutes from the marina. In this area you will have all the amenities at your fingertips such as supermarkets, restaurants, parks, and much more, in a beautiful setting with the Mediterranean Sea at your feet.

Its construction has been commissioned by one of the best developers in the territory, awarded several prizes and working with famous architects. The development offers excellent amenities, such as a covered swimming pool and gym, community parking and optional storage rooms.

This property is located on the fourth floor of the building and is distributed in four bedrooms and two bathrooms with a south-facing and unobstructed views. Upon entering the property, on the left there is a spacious and bright living room with an open kitchen, with access to the terrace and views of the sea. From the terrace, you can also access a utility room room. To the right of the entrance, we have the night area with four bedrooms, each exterior with its built-in wardrobe . There are also 2 full bathrooms, one being in the master suite.

For greater comfort, the apartment has hot/cold air conditioning with a heat pump, an external thermal insulation system, wood-imitation porcelain stoneware floors, modern furniture and wardrobes in each room. The kitchen is delivered fully equipped with high-end appliances , including an induction hob, stainless steel extractor hood, oven and microwave integrated into the column, as well as a stainless steel sink and compact quartz countertop.

This project stands out for its focus on sustainability and well-being. The property is low-consumption, with technologies such as aerothermics energy with accumulation that produces domestic hot water and feeds the ducted air conditioning, which allows significant energy savings.
