Bright Modern Penthouse with Exceptional Outdoor Spaces and Private Solarium

Elegant penthouse with a 75 m² private solarium, spacious terrace, open-plan interiors, and elegant outdoor living areas designed for year-round Mediterranean living.

This elegant second-floor penthouse has been thoughtfully designed to embrace the Mediterranean lifestyle, combining bright contemporary interiors with exceptional outdoor living spaces. With a generous 40 m² main terrace and an impressive private rooftop solarium, the property offers the perfect setting for both peaceful relaxation and entertaining under the sun throughout the year.

The interior welcomes you with a bright open-plan living area where the lounge, dining space, and modern kitchen connect seamlessly in a refined yet comfortable atmosphere. The kitchen features a large central island and opens directly onto the terrace, naturally extending the living space outdoors. The main terrace comfortably accommodates a dining area, sun loungers, and a stylish chill-out corner, ideal for enjoying long afternoons and warm evenings.

The sleeping area includes three spacious double bedrooms with built-in wardrobes. The principal bedroom benefits from an elegant en-suite bathroom, while the remaining two bedrooms share a beautifully finished second bathroom. A separate utility and laundry room located beside the kitchen adds practicality and convenience to daily living.

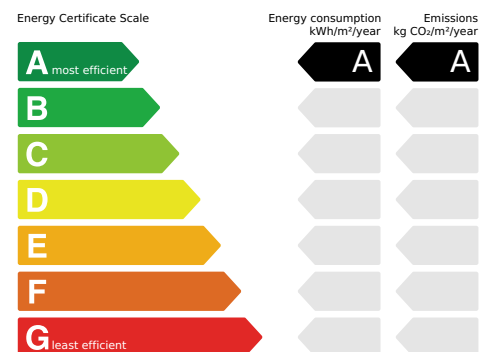

One of the property's most attractive features is the spectacular 75 m² private solarium. This versatile rooftop space has been designed to create different environments for sunbathing, outdoor dining, or relaxing with family and friends, while the pre-installation for an outdoor kitchen allows for the creation of a complete rooftop entertaining area.

High-quality finishes include large-format porcelain flooring, PVC exterior carpentry with excellent thermal and acoustic insulation, motorised blinds, ducted hot and cold air conditioning, and an arothermal system for hot water. The property also includes a home automation system controlling lighting and blinds, as well as a private parking space and storage room.
