The villa features a modern and comfortable design with open and airy spaces in which the space flows perfectly.

The villa is distributed over three floors, plus the lower floor, which offers a garage with capacity for several vehicles and with the option of a charging point for an electric car.

The ground floor houses the huge master bedroom with its private bathroom and access to the private terrace with stunning mountain views.

On the first floor, there are three double bedrooms, one of them with a private bathroom, and an additional bathroom to serve the rest of the bedrooms.

On the second floor, we find the day area in a single room, with the living room, the dining room and the kitchen, with a mezzanine that doubles the height of the ceilings. The loft area offers space to have a chill-out area, library or office if desired. Among its features we can highlight the aluminium exterior joinery with thermal break and triple glazed windows and air chamber, a secure door, motorized blinds, built-in wardrobes and parquet floors in the main rooms and porcelain floors in wet areas.

The kitchen is furnished and fully equipped with the best appliances, such as induction cooker, oven, hood or dishwasher, among others. Finally, it offers a heating system with electric radiators, for greater comfort and a video intercom, for greater security.
