OVERVIEW

Excellent new build villa with 5 bedrooms and several terraces with views of the surrounding environment for sale in a development with garden, spa and parking in Ordino.

Lucas Fox presents Ordino Mountain Residential Resort, an exclusive new build development in the parish of Ordino, a quiet residential area of Andorra, with impressive views of the mountains in the heart of the natural environment.

This development arises from the idea of reinterpreting the concept of a wooden cabin and transferring it to the residential project. To do this, a combination of natural materials, such as wood or stone, with contemporary materials is used. Thus, a fusion of traditional Andorran architecture with innovative design is achieved.

With this idea, this villa has been configured, which has large floor-to-ceiling windows that allow abundant natural light to enter the different spaces and offer impressive views of the natural environment. The property has a modern design, with minimalist furniture, in neutral colors.

This 666 m² villa is spread over four floors and offers all types of rooms, as well as five bedrooms.

On the ground floor, there is a cinema room, a gym area with a private spa, a guest toilet and a coat closet. In addition, two bedrooms with their respective private bathrooms are offered.

On the first floor, we find the main night area, with two double bedrooms with private bathrooms and the impressive main bedroom with its private bathroom, dressing room and a completely private living area. In addition, it has a storage room for more storage space. Each of the bedrooms has access to the magnificent terrace with views of the mountains.

The second floor offers a second open-plan day area in several environments: a living room area, a dining area, the kitchen with a central island and utility room, a guest toilet and a library. This floor also has access to a terrace.

Finally, the upper floor houses its own study, with all possible privacy.

The property has BREEAM certification, a certification that recognizes sustainability efforts in terms of energy efficiency and environmentally friendly construction.

Among its qualities, we can highlight the armored door, white lacquered doors, wooden floors suitable for underfloor heating in the main rooms and porcelain stoneware in the wet areas and the kitchen, a rotating Dexofocus fireplace and built-in wardrobes in the bedrooms.

For greater comfort, it includes aluminum carpentry with thermal bridge breakage with triple glazing and Saint-Gobain low-emissive layer, an air conditioning system with underfloor heating heating and cooling, supported by a fan coil system for cooling; all of this powered by a system of geothermal heat pumps.

The kitchens come fully equipped with Santos furniture in a matte white finish, Neolith countertops and Gaggenau brand appliances. The bathrooms also come fully equipped, with Villeroy & Bosch brand toilets, Hansgrohe taps and Neolith countertops.

The development offers an exclusive garden on several levels, with rest areas, garden areas, pedestrian crossing areas and LED lighting. In addition, it offers a social club with a common room with fireplace, parking with double access, storage rooms and elevators. Finally, it offers a fully equipped spa area with several showers, saunas, pools with massage systems, massage beds and a jacuzzi-type bench. For greater security, the development has access control with a security guard and monitoring of communal areas.
