OVERVIEW

Luxurious and modern apartment with plenty of natural light and incredible views for sale in an excellent location for ski lovers, in Pal, at the foot of the Grandvalira slopes.

Lucas Fox is proud to present Pal 1550 Village Resort, an exclusive new build development with apartments distributed in several sectors. The development is situated in a privileged location in La Massana, at the foot of the Grandvalira ski resorts, in a natural setting, but with all amenities within reach.

The property has a modern and functional design, with a decoration in neutral tones that maximizes the feeling of spaciousness. In addition, it has large open spaces and large windows, which allow the entry of abundant natural light, making it very cheerful and cozy. It also offers privileged views of the surrounding nature, a luxury to enjoy in total tranquility.

This first floor apartment has a surface area of 69 m². The night area includes the main bedroom with its private bathroom. The day area is presented in an open-plan room, with the living room, dining room and kitchen and has access to a wonderful terrace, perfect for unwinding and relaxing. The layout is completed with a guest toilet.

The apartment has high quality finishes, such as a security door, built-in wardrobes, porcelain floors, LED lighting and a home automation system that controls security, air conditioning, lighting and blinds. In order to ensure the creation of passive homes with total energy efficiency, it has a mechanical ventilation system, high quality carpentry with low-emission double-chamber air windows and an air conditioning and underfloor heating system powered by aerothermics. The kitchen and bathrooms are fully equipped. The kitchen has a central island with a Neolith worktop and Siemens brand appliances, such as a combi fridge, dishwasher, oven, microwave, hood and induction hob. The bathrooms have Villeroy & Boch brand sanitary ware of the highest quality and freestanding bathtubs.

The development offers communal areas for the exclusive use of its owners, such as garden areas between the buildings, a commercial area, a café and restaurant, a gym with changing rooms and a relaxation area with a heated pool, shower, sauna and Turkish bathroom. It also offers parking spaces on the underground floors available to the owners. Finally, the installation of charging points for electric vehicles is planned.
