OVERVIEW

Modern design property in an 1871 building on Rambla Catalunya, in the heart of Barcelona.

The Rambla Catalunya 29 development presents this luxurious 110 m², 2-bedroom penthouse in Barcelona's Golden Square, the most prestigious and sought-after area of Barcelona.

This refurbishment and expansion project, carried out by TBD Arquitectura, has prepared a magnificent building from 1871 to meet the expectations of the most discerning clients.

As its name suggests, this development is located on Rambla Catalunya, one of the most prominent modernist avenues in the centre of Barcelona. Always brimming with life, history and culture, this semi-pedestrianized thoroughfare is home to a selection of luxurious boutiques, exclusive brands, and prestigious restaurants and cafes. From here, you can walk to the most prominent places in the Eixample, or by public transport, thanks to its excellent connection to the metro, train and bus networks. In addition, it is right next to Passeig de Gracia, an avenue full of luxury establishments and emblematic buildings.

The wonderful façade of the property is combined with the contemporary interiors of this apartment, which are distributed in open rooms in which the layout flows, enhancing its spaciousness and light. As soon as you enter, it is obvious that it is not a conventional home.

We enter directly into the very large day area, consisting of an open space that includes an equipped kitchen and a living-dining room. This exclusive space extends throughout the home and, at the back, is the master bedroom. A bathroom completes the home.

An apartment with an elegant style and the highest quality finishes, without a doubt the ideal home for a couple or a professional.

A luxurious new development in one of the liveliest and most cheerful avenues in the centre of Barcelona.
