OVERVIEW

New build 2-bedroom loft with a terrace for sale in Poble Nou, Barcelona.

Lucas Fox presents the new development, Can Ricart Lofts. This is a unique project in the most technological and exclusive district of Barcelona, 22@, which offers all kinds of services, as well as excellent transport links to the city centre and a wide range of leisure and cultural activities.

The development consists of 4 renovated buildings, which are representative of the industrial era of Barcelona of the 19th century and declared an Asset of National Interest. Period features, such as the original arches on the facades, are found throughout and artfully combined with all modern comforts. Likewise, the original skylights and ceilings have been preserved to provide the homes with abundant natural light and to create the interior-facing terraces.

The development has a total of 25 open-plan homes, all with a lot of character and personality, with a modern design that preserves representative features of industrial Barcelona. This particular 2-bedroom property is found in Building B, a restored chimney construction of Can Ricart has 5 apartments with magnificent interior terraces.

The homes have excellent quality finishes. Among them, we highlight the microcement floors on the ground floors and natural wood on the rest of the floors, an air conditioning system with heat pump and home automation system. The kitchens are fully equipped with Siemens appliances and the bathrooms with Duravit equipment and Hansgrohe taps.

Contact Lucas Fox for more information on this unique development.
