Incredible penthouse with views for sale Sant Gervasi, Barcelona

Spacious 2-storey penthouse with terraces overlooking the sea and the city in one of the most exclusive areas of Barcelona.

This magnificent penthouse is located in a building in perfect condition with a lift and concierge service, it also includes 2 storage rooms and 4 parking spaces.

The penthouse is in need of reform and offers great potential thanks to its intuitive distribution, which allows one to live on the main floor without having to go up to the upper level, as though they were independent houses.

The main floor offers a spacious living room with access to a large terrace from which beautiful views of the sea and emblematic city sites, such as the National Palace of Montjuïc and the Natural Park of Collserola, can be enjoyed. Next to the living room there is an office, that is currently used as a library, and a guest bathroom. The spacious dining room has access to its own outdoor terrace and is connected to an outdoor kitchen with a laundry room, a service bedroom and a toilet. A large utility room with a machinery area and an outdoor space for hanging laundry complete this area of the house.

The night area consists of 3 large bedrooms with private bathrooms with a bath and shower and an exterior facing window. These rooms stand out for their size, much larger than a standard double bedroom. In addition, the master bedroom offers a large dressing room and the possibility of opening an exterior window onto the terrace.

A pleasant staircase leads from the main hallway to the upper floor. This level is divided into 2 practically independent spaces: to one side we find a bedroom with a full private bathroom and a spacious living room and on the other, a double bedroom with a private bathroom and a library-type living room with a fireplace, which creates a cosy atmosphere. One of these spaces also has a large attic with skylights and a panic room.

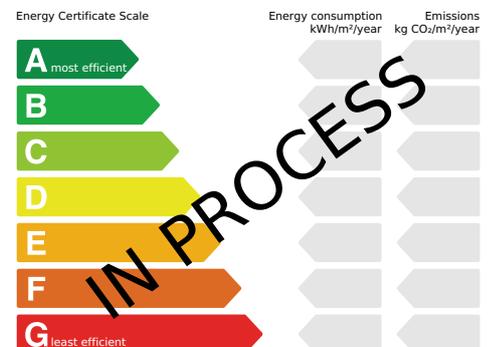

The house is equipped with wooden floors, a gas heating system and heat pump and air conditioning to ensure comfort throughout the year. In addition, the apartment has electric shutters and a loft for maximum storage.
