OVERVIEW

Plot with a project for a 267 m² detached house in Arenys de Mar, Barcelona

Plot located in Arenys de Mar, a few metres from the port. With a strategic location both for public transport and private transport. The distance from Barcelona is 40km, and the idyllic coast of Costa Brava is only 20 minutes away by private transport.

Arenys de Mar, has a national road and motorway, which makes it easy to access, with perfect connections to Barcelona as well as to France. The city has its own train station, as well as several bus stops.

The plot consists of 748m², in which a 267.78m² house is built, with panoramic views, and a few meters from the nautical port of Arenys de Mar. The property may have the customization that the client wishes, with the latest advances in home automation, as in energy efficiency. The finishing touch will be its splendid swimming pool, to make your house a true home, where you can enjoy with family and friends.

Excellent purchase, since there will be no detail that is undervalued, you can create any dream from the hand of the excellent architects and designers that this project has, an avant-garde work, respecting the environment with a fantastic location.

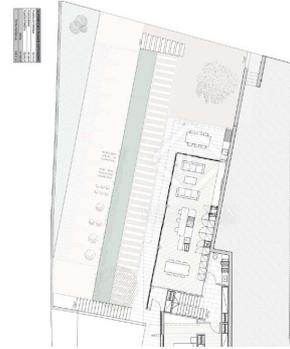

The main feature of the house is the degree of personalisation possible. The starting project will consist of the following:

A vertical and horizontal reinforced concrete structure, a white SATE-type façade, 19-cm thermoclay walls, with 60-mm polyurethane insulation and coated with high-performance acrylic mortar. It will also include plasterboard and metal profiles or plaster to paint.

The property will have laminate and porcelain stoneware flooring and Technal lacquered aluminum window frames (or similar), with insulated glass with an air chamber. The blinds will be self-locking and aluminum.

In the bathrooms we shall find flush resin shower bases, toilets and bidets by the brand Roca or similar, cabinets by the brand Geminis or similar and there will be Grohe taps or similar.

The house will have secure entry doors, white lacquered access doors with stainless steel hardware and handles, and wooden sliding doors, with a metallic Scigno-type structure.
