4 Bedrooms **2** Bathrooms **141m²** Floorplan

OVERVIEW

Fabulous open-plan 140 m² penthouse with wooden beams and pillars located in a building from 1890 with traditional Malaga architecture.

This penthouse is located on the third floor of a building, which could benefit from the installation of a lift, as well as a general modernisation. However, it offers a large amount of space with extraordinary architectural details that are very unusual in the historic city centre. What's more, it has only one apartment per floor.

Behind the huge front door, we find a lobby with 4-metre-high ceilings. From here, behind a double door, we access the spacious open-plan living room that encompasses the entire front section of the building with two balconies on Calle Carretería and has 5-metre-high, gabled ceilings and exposed wooden beams.

From the lobby, we have a hallway with access to three bedrooms and an additional living room. In the background, at the rear of the building, there is a huge bathroom, kitchen and terrace.

From the kitchen, we find a staircase to a bedroom with its private bathroom located on an upper floor, in addition to a huge additional room / storage room.
