Lucas Fox presents Sierra Blanca Tower, a building with an impressive height of 80 meters and 21 floors that is located on the front line and houses a total of 71 homes.

This property is characterized by having large spaces, with top-level finishes and noble materials. Enjoy abundant natural light, since the floor-to-ceiling windows allow the entry of abundant natural light.

Upon entering, there is a lobby that leads to the rest of the rooms. On one side, we find in an open and open-plan space of generous dimensions, the day area, with a living-dining room and the open-plan kitchen, with an exclusive island. Through a second lobby, we reach the main bedroom with a private bathroom with double shower and bathtub and dressing room. Both the main bedroom and the living room have access to a terrace with exclusive sea views, with a chill-out area, exterior dining area and an exclusive jacuzzi.

Back in the lobby, to the other side there is a guest toilet and three bedrooms with their respective private bathrooms, in the quietest area of the property.

Every detail has been meticulously selected to guarantee maximum comfort and quality of life: from the high-quality rectified porcelain stoneware, the interior carpentry in stained oak wood, the Schüco exterior carpentry with exceptional thermal and acoustic insulation, to the lifting and/or folding sliding doors and windows. It is also worth mentioning the blinds and curtains controlled by home automation, which adorn most of the rooms. On the other hand, the kitchen from the renowned Italian brand Aster can be customized and is equipped with Miele appliances. Furthermore, the apartment also has underfloor heating, which works with an advanced aerothermics system, while the air conditioning guarantees high energy efficiency.
