### OVERVIEW

## A new development of Apartments for sale in west-malaga, Costa del Sol with a starting price of €400,000

Lucas Fox is pleased to present Torreblanca Heights, a new build with 36 apartments in the privileged location of Fuengirola, Malaga. In this location, you can enjoy great tranquility within short distance of the sea, without giving up all the amenities that this lively city offers.

The development boasts a contemporary design that imitates the shape of a ship's hull, whilst blending into the surroundings, and includes local and noble materials such as wood. Furthermore, thanks to its elevated position, the homes enjoy stunning panoramic views of the Mediterranean Sea.

The development offers 36 apartments of different types, with two, three and four bedrooms. Apartments are offered on the ground floor, middle floors and penthouses, all with large terraces with impressive views. Each of the apartments includes two parking spaces and a storage room.

The homes have a modern design, with functional and open spaces, such as the living-dining room with the open-plan kitchen, which maximizes the feeling of spaciousness. Likewise, by having large windows, the rooms enjoy abundant natural light.

The apartments are sustainable and benefit from high energy efficiency, with a B classification, since the use of renewable energies, such as solar energy or aerothermics energy, is included for the production of hot water. Among its finishes, we can highlight the security entrance door, parquet and porcelain stoneware floors in wet areas and terraces, pre-installation of alarm and home automation and video intercom.

The Nel'la Design kitchen comes fully equipped with appliances, a Silestone countertop and upper and lower cabinets. The bathrooms are tiled with ceramic tiles and feature porcelain fittings and taps from the best brands, such as Roca.

For greater comfort, it has interior and exterior aluminum carpentry with great acoustic and thermal performance and great insulation, and a Samsung brand air conditioning system with a cold/hot heat pump.
