**Environmentally sustainable villa with luxury minimalist design in a new landmark residential country club, La Quinta Real resort, where nature and the modern world coexist in perfect harmony.**

Villa with a useable surface area of 476 m<sup>2</sup> located on a generous plot of 1,899 m<sup>2</sup>. The villa comes with private pool and garden, terraces with magnificent open views towards Gibraltar and Mediterranean Sea as well as optional space for entertainment rooms and offices that can tailored individually for each villa on this boutique development.

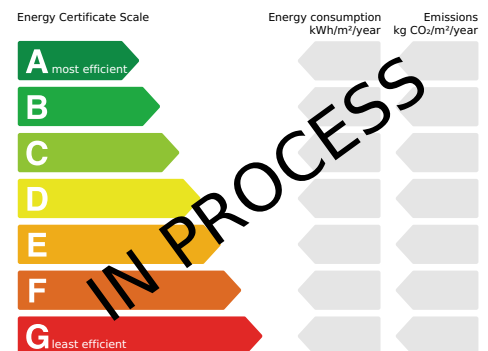

The concept of "outside/inside" is one of the main features for each villa, with the lounge and terrace seamlessly merging into one huge living space. This is made possible by making the windows disappear into the walls and this both at ground and upstairs level.

The developers of this distinctive project are promising their utter commitment to create space and commodities around the villa with abundance of clean air in beautiful natural surroundings.

The amenities at Real de La Quinta, combined with the facilities of each individual villa, mean that owners never need to leave the resort unless they want to. It will be created as an oasis where comfort and quality of life is assured, regardless of what might be going on in the wider world.
