### OVERVIEW

## Exclusive 3-bedroom apartment with a terrace for sale in a wonderful new development with communal areas such as a pool and garden in Platja d'Aro.

Lucas Fox is pleased to present Brava Beach, a magnificent new development, on the seafront in Platja d'Aro, one of the most beautiful towns on the entire Costa Brava.

The development, the work of the award-winning architect Ricardo Bofill, presents the latest in architecture, with sustainable and efficient homes and a modern and open design. Likewise, they enjoy careful distributions, to offer the greatest possible comfort, as well as the best orientations to the sea and large windows, to obtain homes with great luminosity and beautiful views of the sea.

The community offers excellent common areas for the exclusive enjoyment of its owners, such as a swimming pool for adults and children, a gym, paddle tennis court, events room and a magnificent garden.

This first floor apartment has 80 m<sup>2</sup> and boasts a modern and up-to-date style, with clean lines, clear shapes and a sober design with a perfect combination of neutral colours.

The house benefits from a very functional layout with clearly differentiated day and night areas. To the right of the entrance, there is a large diaphanous day area, with the living-dining room and the open kitchen. From here, we go out to an 18 m<sup>2</sup> terrace, perfect to enjoy with the family or relax after a long day. To the left of the hall, we find the night area with a single bedroom, a double bedroom and a full bathroom to serve the entire house. The distribution is completed with a magnificent bedroom with its own private bathroom.

The house presents the best qualities of the market. We can highlight the porcelain floors of the Porcelanosa brand, armored access door, fitted wardrobes and white lacquered doors. For greater comfort, an aerothermal system is included for the production of domestic hot water and for underfloor heating, air conditioning with heat pump through ducts and aluminum carpentry with thermal break and double glazing. Thus, maximum efficiency and sustainability are achieved. On the other hand, it has a home automation system to control the air conditioning system, the lights and the motorized blinds. Finally, the kitchen and bathrooms are presented with all the equipment of the best brands.
