OVERVIEW

Exclusive 3-bedroom apartment on the seafront with terrace for sale in a fabulous new build development with communal areas such as pool, gym and garden in Platja d'Aro

Lucas Fox is pleased to present Brava Beach, a magnificent new build development, on the seafront in Platja d'Aro, one of the most beautiful towns on the entire Costa Brava.

The development, the work of award-winning architect Ricardo Bofill, presents the latest in architecture, with sustainable and efficient homes and a modern, open-plan design. Likewise, they have careful layouts, to offer the greatest possible comfort, as well as the best orientations to the sea and large windows, to obtain homes with abundant natural light and beautiful views of the sea.

The community offers excellent communal areas for the exclusive enjoyment of its owners, such as a swimming pool for adults and children, a gym, paddle tennis court, event room and a magnificent garden.

This apartment on the fourth floor has 80 m² and has a modern and current style, with clean lines, clear shapes and a sober design with a perfect combination of neutral colors.

The property benefits from a very functional layout with clearly differentiated day and night areas. To the right of the entrance, there is a large open-plan day area, with the living-dining room and the open kitchen. From here, we go out to a 16 m² terrace, perfect for enjoying with the family or relaxing after a long day. To the left of the entrance hall, we find the night area with a single bedroom, a double bedroom and a full bathroom to serve the entire property. The layout is completed with a magnificent bedroom with its own private bathroom.

The property has the best qualities on the market. We can highlight the Porcelanosa brand porcelain floors, armored access door, built-in wardrobes and white lacquered doors. For greater comfort, an aerothermics system is included for the production of domestic hot water and for underfloor heating, air conditioning with a ducted heat pump and aluminum carpentry with thermal bridge break and double glazing. Thus, maximum efficiency and sustainability is achieved. On the other hand, it has a home automation system to control the air conditioning system, lights and motorized blinds. Finally, the kitchen and bathrooms are presented with all the equipment from the best brands.
