Sabinas Real La Quinta Apartments

A new development of Apartments for sale in Quinta, Costa del Sol

Q3 2025

Completion

OVERVIEW

Sabinas: New development in Real de La Quinta with sublime views, stunning location and supreme services offered by Real de La Quinta Residential Country Club Resort.

The fourth project in the Real de La Quinta Residential Country Club Resort, Sabinas is the most ambitious to date, according to the developer.

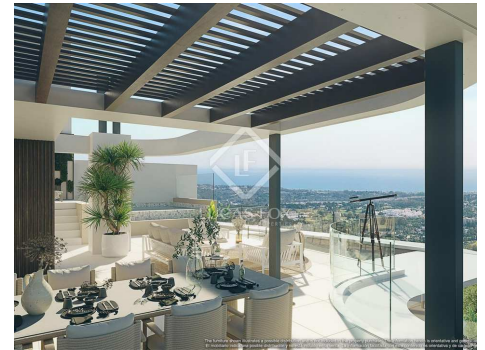

The construction of Sabinas is proposed in four phases, corresponding to the 4 distinct levels of the prime hillside position upon which it will sit. Phase I will consist of 39 apartments distributed across 4 low rise buildings offering a combination of apartments, ground floors with gardens, and penthouses designed to offer the advantages of single storey living coupled with rooftop solariums to allow for sun-filled living at its very best. Close to all the proposed features of the La Quinta Residential Country Club Resort.

This new residential project of exclusive apartments has been assigned to internationally renowned, yet locally acclaimed architects Villarroel Torrico, the creative force behind so many emblematic landmarks in Marbella such as the Puente Romano Hotel and Marina Puente Romano.

The mix of cream concrete, wood and natural stone echoes the surrounding countryside to encourage feelings of harmony with the stunning natural setting. The spacious living areas and large terraces create a feeling of space and freedom that favours outdoor living and indoor comfort.

Sabinas is in Real de La Quinta, where the views will take your breath away. A luxurious urbanization of 200 hectares on the mountainside, with villas and apartments. An innovative and practical "smart life" carefully organized around a hotel, restaurants, shops, golf course and golf academy, wellness, equestrian centre, orchards, and a sports lake.

El Lago Club will be a reality in 2025, joining the four urban developments that, by that date, will comprise Real de La Quinta (Olivos, Quercus, Palmitos and Sabinas).
