OVERVIEW

Impressive 9-bedroom property for sale in central Sitges, just minutes from the beach. A modernist/neoclassical masterpiece that is that jewel in the crown of modern Sitges.

From the unsuspecting bustling streets of modern day Sitges, we enter this property through the grand towering gates into another world steeped in history.

This iconic property is for sale right at the heart of Sitges with the beaches and Mediterranean Sea just a few steps away.

We enter this exceptional home to find 2 large, welcoming rooms that are the living room and dining area, featuring an impressive fireplace that would make any winter evening a delightfully cosy experience.

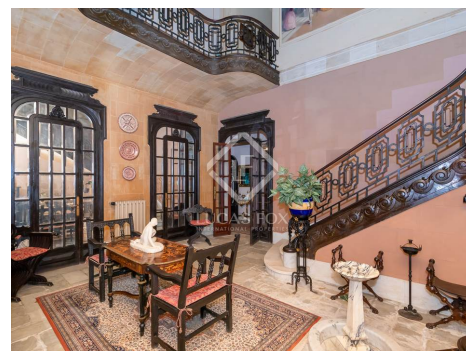

There is a kitchen, a pantry and a guest bathroom for convenience along with 2 other rooms that can be used as guest quarters or as an office space.

As we enter the wonderful hallway, there is an impressive sweeping marble staircase that is surrounded by hand-painted frescoes, the plans for which are stored in the Museum of Design in Barcelona. The art deco design staircase extends beautifully to the first floor, where we find 5 double bedrooms and 2 very large bathrooms. Looking up at the hand painted walls, our eyes are drawn to the most beautiful and intricately coloured skylight. The main master bedroom opens up to a terrace that overlooks the lush and expansive garden below.

The third floor has space to be converted as needed and offers access to a large open roof terrace that is an incredible space to have drinks and entertain friends and family.

On the lower ground floor, we find a cellar for storing your wine collection.

This precious Sitges property is an unmissable opportunity for the right buyer looking to work on this project, whether that be an investor looking to bring this splendid property back to its former glory with some modernizing whilst preserving all its stunning original features or indeed a family that would be honoured to live in such a home.
