OVERVIEW

Project with panoramic views on a 1000 m² plot , with swimming pool, gym and guest annex for sale in Bellaterra.

The house is located in the Bellaterra development , one of the few areas with isolated single-family homes in the metropolitan area of Barcelona, which is located on the outskirts of Barcelona, but connected to the city centre through an important network of infrastructures that, in addition , facilitates communication with the Vallès region, of great natural and landscape value.

The property has been designed following the corresponding construction and project criteria to make it energy efficient. It faces mainly southeast and offers views of the Collserola mountain range. In addition, both the house and the garden area make the most of the sun they receive.

The property has two different entrances, one for pedestrians and vehicles from the lower roundabout and another for pedestrians on the first floor, crossing a walkway. In this way, the uses of the building could be divided and allow property and study to be shared together.

The house is distributed over four floors:

On the ground floor, we find the day area with a large living-dining room with large windows that overlook the garden with an infinity pool. A kitchen with a dining area, a laundry and ironing room, an annex for guests and a guest toilet complete the floor.

On the first floor, the night area is located, with three double bedrooms with two complete bathrooms and the main bedroom with bathroom and dressing room.

The roof floor has its own entrance from the upper street, making it ideal for use as an independent studio.

On the lower ground floor, we find the garage for four cars, staff changing room, facilities room, wine cellar, pantry and gym.

The garden is large and surrounds the property, it also has a large terrace with a porch to enjoy in summer and a swimming pool with beautiful panoramic views.
