OVERVIEW

Spectacular and unique design house for sale in Valldoreix.

Lucas Fox is pleased to present this incredible and exclusive property of 900 m², designed by the prestigious architect Joan Enric Ejarque, built in 2018 with top quality materials. The property is located in a privileged residential area, due to its tranquility and at the same time well connected to the nerve center of Barcelona.

The 1044 m² property sits on a 2900 m² plot and is distributed over two floors. From the exterior of the house, you can already see the quality of the property, with a modern, luxurious and sober style. Here, we find an exterior main entrance that evokes the Mies van der Rohe pavilion.

Once inside, in the entrance hall we appreciate its unique style, with the same architectural philosophy. It has a façade covered with windows that provide natural light throughout the day and spectacular views of the garden. On this ground floor we find a spacious living-dining room, ideal for holding meetings with friends and family, with a large window that covers the entire front and separates the living room from the front porch and offers us beautiful views of the pool and practically the entire garden.. Next is the spectacular designer kitchen, with direct entrance, fully equipped with top-of-the-range appliances from the Gaggenau brand. In addition, it has an exquisitely designed central island, commendable storage space for household items in the closets, an office area and a comfortable pantry. Here we also find the service area, consisting of a bedroom, a full bathroom and a laundry and ironing room and the garage with capacity for four cars.

Continuing our journey, we find a large hall that leads us to the night area , which is made up of a large dressing room, four double bedrooms with two complete bathrooms and a large bedroom with a dressing room and full bathroom . All bedrooms have sliding doors to the exterior with access to the terraces and garden that surround the house.

A gym with large windows overlooking the garden and pool, as well as a guest toilet complete this floor of the property.

6	6	901m²	2,903m²
Bedrooms	Bathrooms	Floorplan	Plot size

We access the first floor via wide stairs with a glass railing and reach the master suite, a spacious room with plenty of natural light that has a large dressing room and a full bathroom with double sinks, a large shower and a private terrace. The floor is completed with an open-plan office, completely away from the night area and provided with plenty of natural light. A space that lends itself to concentration and creativity.

From the entrance hall, we go down some stairs and access the lower ground floor that houses a home cinema room with direct access to the terrace and garden.

The exterior consists of a magnificent swimming pool 25 meters long by 2.5 meters wide. A beautiful wild garden with native plants with a barbecue area, outdoor dining room and chill-out area complete this unique property .

In the technical section, it is worth highlighting the highly energy-efficient windows with low-emission glass. In addition, it has a space to install a lift that connects the two floors, an underfloor heating air conditioning system and air conditioning powered by aerothermics. Regarding the efficiency of the house, it is essential to highlight, in the electrical section, that it has a solar panel system, a total of 52 panels that reduces the energy costs of the property to the maximum. Regarding the garden, the house has a 100,000 liter cistern that stores rainwater that is used to irrigate the plot. With all this, maintenance costs are exceptionally low.

It is a unique property , with a perfect symbiosis between aesthetics and practicality, with details such as its spaciousness, luminosity, quality of finishes, energy efficiency and beauty of the environment. Despite the initial impact of its majesty, once inside we felt the comforting feeling of home.
