OVERVIEW

Renovated house of 359 m² in the old town of Altafulla, with three floors, attic and garage.

Singular house located a few metres from the Plaza del Ayuntamiento in the picturesque town of Altafulla. It is made up of three floors, a garage on the ground floor and a loft with a study.

The different rooms on each floor run along the main façades in the shape of a fan, which provides exterior light and direct ventilation to the entire house.

On the ground floor there is a large family kitchen with a central island, fully equipped and open, along with a large dining area. This large room communicates directly with a closed garage / garage with direct access to the side street. The ground floor is complemented by a guest toilet, in addition to the hall on the main street.

On the first floor there is a spacious room divided into three rooms: a living room and television, a winter dining room and a second living area with a fireplace and a large window that gives access to a large covered terrace facing east. A double bedroom and a bathroom complete this floor.

The night area is on the second floor, which houses three double bedrooms with private bathrooms and wardrobes. In all of them, a careful reform in both finishes and materials and accessories stands out, combining a contemporary style with the traditional architecture of the building.

On the top floor of the house there is an attic room, conditioned and furnished as a study and work area.

The house has always been used as a second residence. Its owners have decorated, cared for and maintained it with care without any other purpose during all this time.

Due to its location, less than 15 minutes walk from the beach, its characteristics and high quality finishes make it a magnificent opportunity for those wishing to live independently in the heart of the town of Altafulla.
