OVERVIEW

New build villa with completion in April 2025 for sale in a development near Platja La Llosa de Cambrils, Costa Dorada.

Lucas Fox presents this unique detached villa in a new build that offers a unique design, close to the sea and to enjoy the Mediterranean lifestyle. The residential complex is located a minute's walk from the idyllic La Llosa beach in Cambrils. It is ideal for families as a first or second home on the charming Costa Dorada.

This exceptional villa stands out for its modern design and functionality, with more than 260 m² built distributed in four bedrooms and three bathrooms. In addition, it has its own independent plot with a garden, with a wonderful private salt chlorination pool and a garage.

Upon entering, there is an elegant entrance hall that leads to a spacious living-dining room with an integrated open-plan kitchen equipped with appliances. The room enjoys abundant natural light and is connected to the exterior, with a beautiful terrace that leads to the extensive garden and swimming pool, perfect for enjoying the Mediterranean climate at any time of the year. A separate utility room, a bathroom, a double bedroom and a private garage complete the ground floor. The upper floor has three double bedrooms, including the master bedroom with a dressing room, bathroom and terrace.

The construction is being carried out meticulously with the highest quality standards. An aerothermics air conditioning system, underfloor heating, automation of the blinds and exterior lighting are included. All of this is controlled by home automation from your smartphone. In addition, the pre-installation for photovoltaic panels and for charging an electric vehicle will be included.

Additionally, the house could be customized and different layouts and materials selected, as long as it does not affect modifications to the common elements, such as the façade, and if the construction deadlines allow it.

This development offers this impressive state-of-the-art villa, with an original avant-garde project, with premium features, in a privileged setting and close to the sea.

The keys are scheduled to be handed over in April-May 2025, and the possibility of making personalized visits is offered during the course of the work, so that those interested can learn more details about the project.
