OVERVIEW

Exclusive penthouse with panoramic views of the entire city for sale located on a top floor of Ikon, the new residential icon of the city, next to the Palacio de Congresos, in Valencia.

We present one of the most exclusive penthouses of the Ikon project, the new residential icon of the city of Valencia next to the Palacio de Congresos. The attic of more than 460 m² built is located on the 29th floor of tower A, from where you can enjoy the best panoramic views of the city.

This very special penthouse of the development has the best views of the capital and with a perfect southeast orientation. It benefits from perfectly distributed spaces and several terraces in different orientations, as well as an immense solarium on the upper floor.

The penthouse is distributed over two floors. The living areas of the house are located on the access floor, while its large solarium with the option of a jacuzzi occupies the upper floor.

Upon entering, we are welcomed by a generous hall that leads us to the day area, with a spacious living-dining room with several windows and with access to a large front terrace. Next to this space, there is a guest bathroom, while the kitchen is located in the other direction and has an island, a space to eat and access to another terrace.

After crossing the day area, you will find the night area, made up of four double bedrooms with large wardrobes. Two of the bedrooms have a private bathroom. The four bedrooms are exterior and have access to several terraces or have large corner windows that offer magnificent exterior views.

The penthouse extends from the interior to the terraces, which with their large windows, present us with panoramic views of the city skyline; thus from the private space itself, a unique atmosphere is created where the blue sky and the urban landscape are part of the home.
