OVERVIEW

Exclusive penthouse with panoramic views of the entire city for sale on a top floor in Ikon, the new residential icon of the city, next to the Palacio de Congressos, in Valencia.

We present one of the most exclusive penthouses of the Ikon project, the new residential icon of the city of Valencia next to the Palacio de Congressos. The penthouse with a built area of more than 160 m² is located on the 12th floor of tower B, from where you can enjoy the best panoramic views of the city.

This very special penthouse of the development has panoramic views of the capital and a northeasterly aspect. It benefits from perfectly distributed spaces and two terraces in different orientations.

The day area consists of a spacious living room with several windows and access to a front terrace. Next to this space is the kitchen with island and laundry room with access to the terrace.

Crossing the circulation space is the night area, made up of three bedrooms with large wardrobes. The master bedroom enjoys its dressing room, bathroom and private terrace. The three bedrooms are exterior facing and have large windows that offer magnificent exterior views.

One of the highlights of the penthouse is the extension of the interior out to the terraces through the large windows, introducing the context and the skyline of the city in the private space itself, creating a unique atmosphere where the blue sky and the urban landscape are part of the home.

Here architecture reaches its highest level in design and quality, from the image, the layout and the finishes, to the positioning and the brands used.

The choice of materials and finishes, with their surfaces and textures, achieve an effect of integration and continuity, transmitting a feeling of purity and timelessness.

Get in touch for detailed information on this exclusive penthouse located in the city's new residential icon, where dreams come true.
