OVERVIEW

High ceilings, mosaic floors, and outdoor space in an imposing Modernista building.

This property is in one of the best-preserved Modernista buildings in the area.

The hallway, recently restored, is a marvel that preserves the elegance of an impressive period building.

It is located on the fifth floor, which offers us open and unobstructed views.

The home is divided by a hall and requires complete renovation.

On one side, we have the living room with the integrated kitchen, a reading room, two complete bathrooms and a toilet.

These rooms share access to a block patio.

In front of these, we find 4 bedrooms that face the facade.

Since it is in the part of the neighbourhood by the train station, we enjoy some great views.

In addition, we are lucky to have a small balcony that allows us to place a table and two chairs to have an open space that today has become a luxury.

High ceilings and floors with personality are elements to enhance with the renovation.
