OVERVIEW

This fantastic large villa with a generous plot, lovely mature garden benefits from a good location close to international schools and Vigo city centre.

We find this fabulous well built villa in Gondomar, Pontevedra, at a short driving distance from the town square and the city of Vigo.

The property was built in 2006, very well made with good quality materials throughout, a fantastic layout and a nice view of the valley.

The property offers a good size plot measuring 2,000 sqm with a lovely garden area with mature plants, flowers and trees providing privacy. It is situated on a small hilltop with beautiful views of the valleys.

The property benefits from excellent position, facing east, south and west and offers abundant natural light throughout the entire day.

Once we enter the property, we find a large front entrance area that offers the possibility to park 4 cars, finished with pavement of suitable quality materials. We see the small front garden finished with a mature olive tree, plants, flowers, and shrubs on this side. While facing the facade, we notice the excellent quality craftsmanship of the stonework on the property—the large stone columns and railings and the well-kept exterior stone facade.

On the main level, we find a sizeable welcoming terrace area, which leads to the reception hall of the villa. Once inside, we have the corridor on the main floor, which divides the villa into the day and night area.

On this level, we find the large living and dining room, which leads to the exterior terrace and the kitchen. The kitchen area boasts a good size, good finishes and good appliances. Next to the kitchen, we find another dining area that leads to the rear terrace area with direct access to the garden.

A fantastic layout to enjoy the summer evenings next to the garden and pool area.
